H: 10.30AM

KONTRAST ROOM  
HALL 3  
EAST SIDE

*'The textile industry faces a great challenge: to create products for an increasingly demanding market while respecting the environment and caring of natural resources. The ONE line of fabrics was born from a search for materials with a lower environmental impact and better performance. A task achieved in collaboration with suppliers and customers, because sustainability is a shared challenge'.*

*[Umberto Negri, chairman ARGAR Srl]*
